la nature vivante

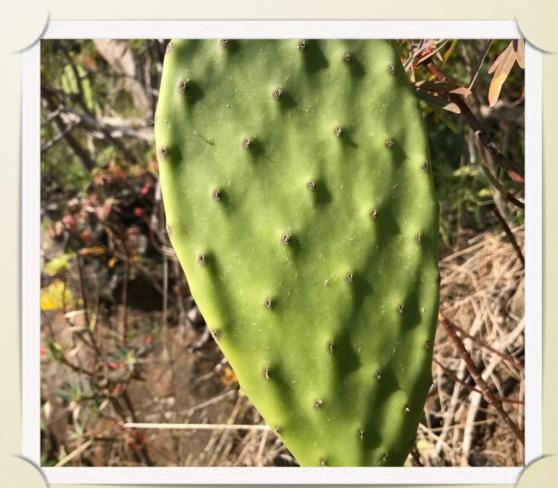

HEUREUSEMENT, IL Y A LA NATURE VIVANTE

• les figuiers de Barbarie ont été importés

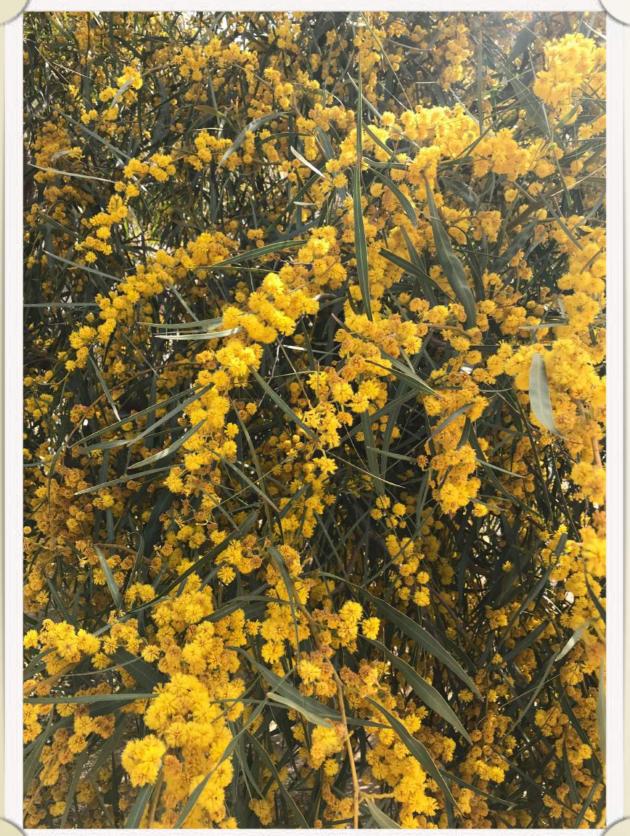

question : pourquoi les figuiers de Barbarie ont -ils une répartition régulière (géométrique) de leurs aspérités?

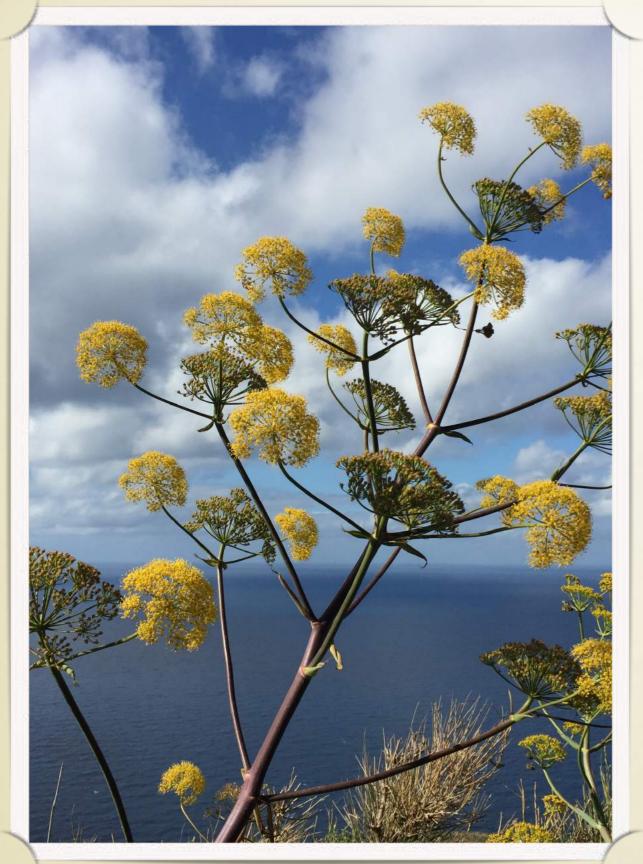

mimosa géant

armoise

fenouil sauvage

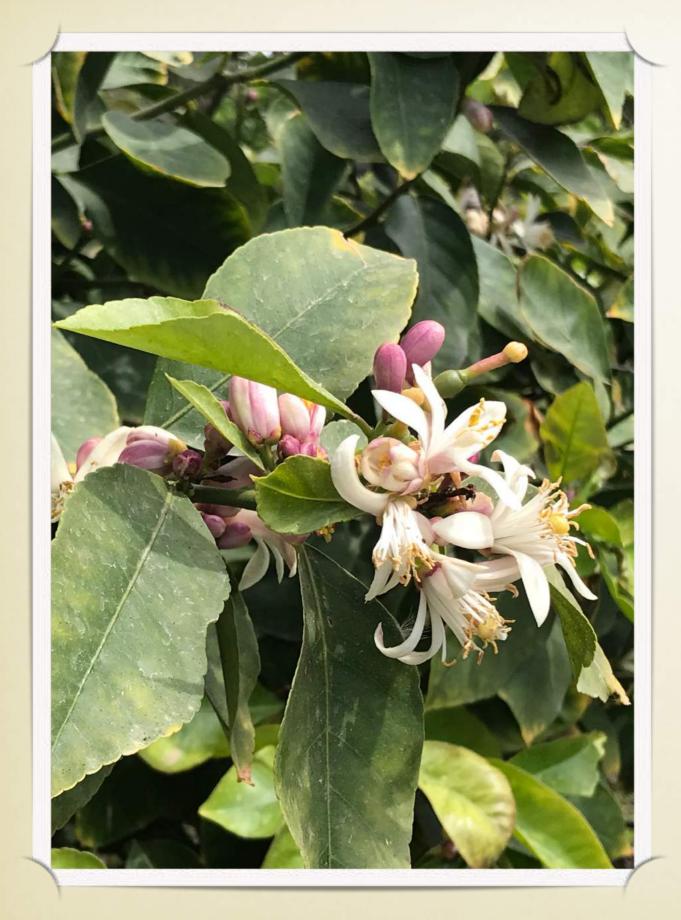

le fenouil, c'est joli, et c'est bon dans les spaghettis

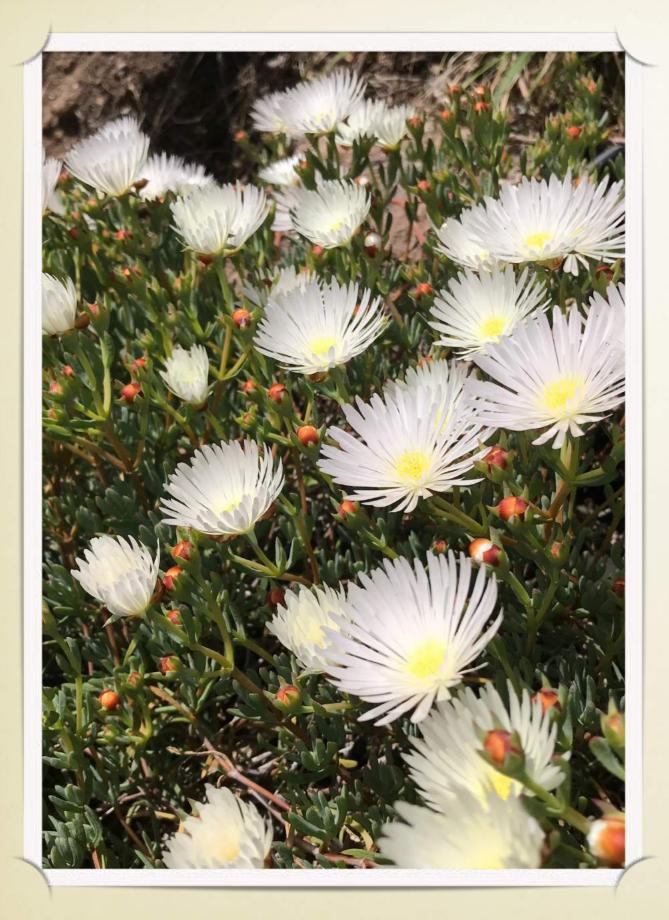

des fleurs arrivent à pousser dans de la pierre de lave

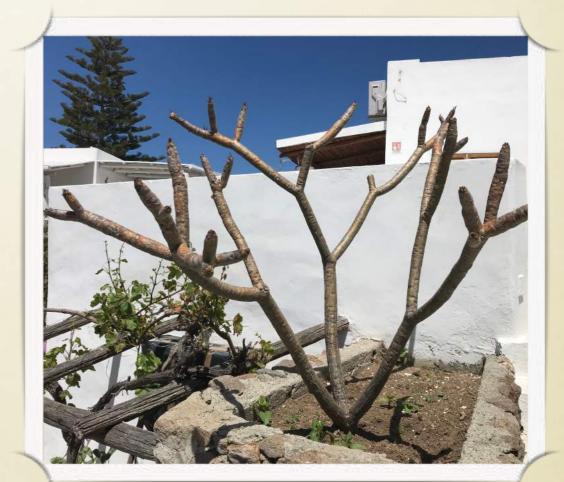

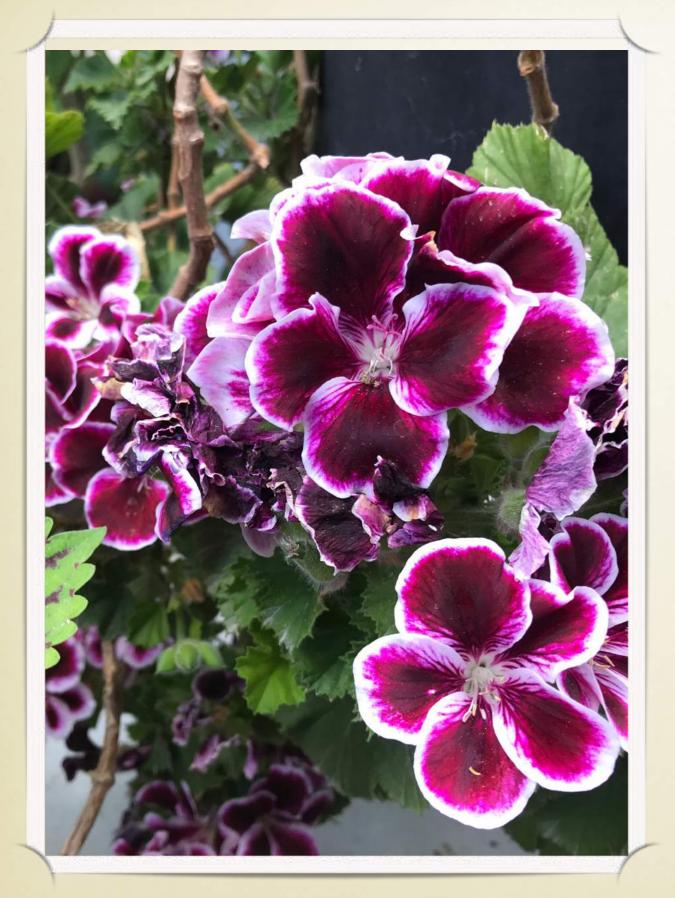

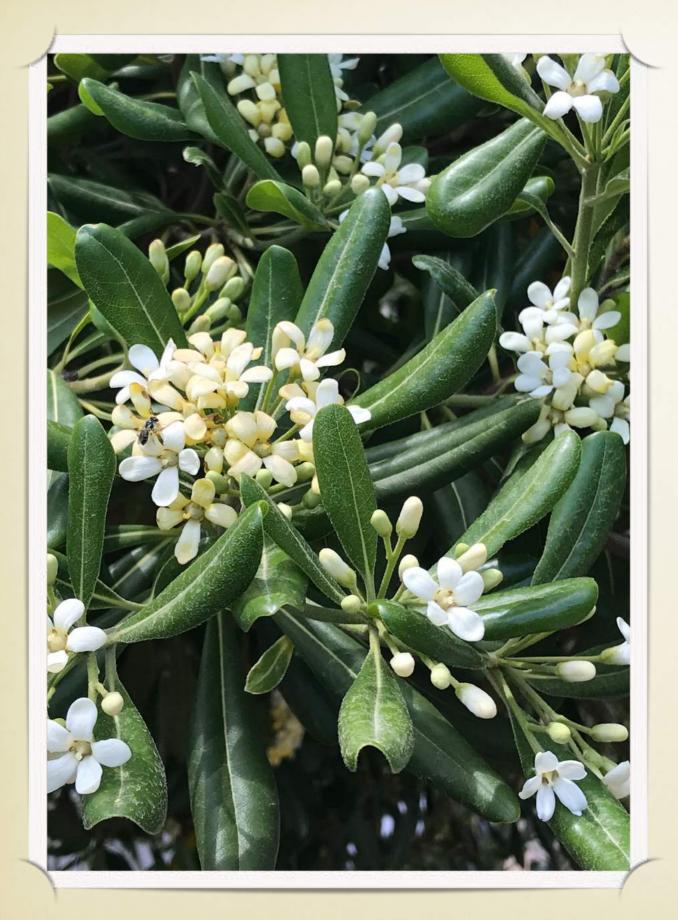

et plein de citronniers

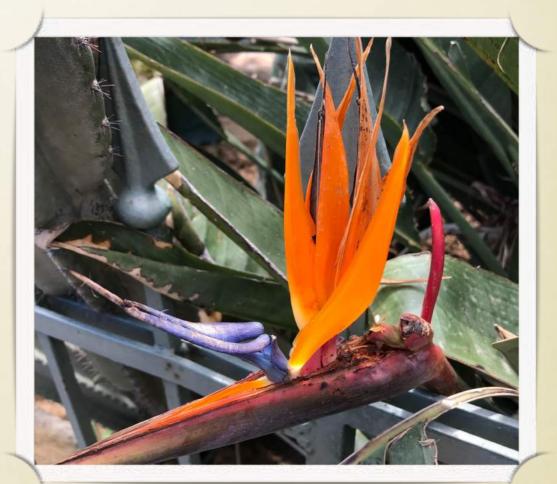

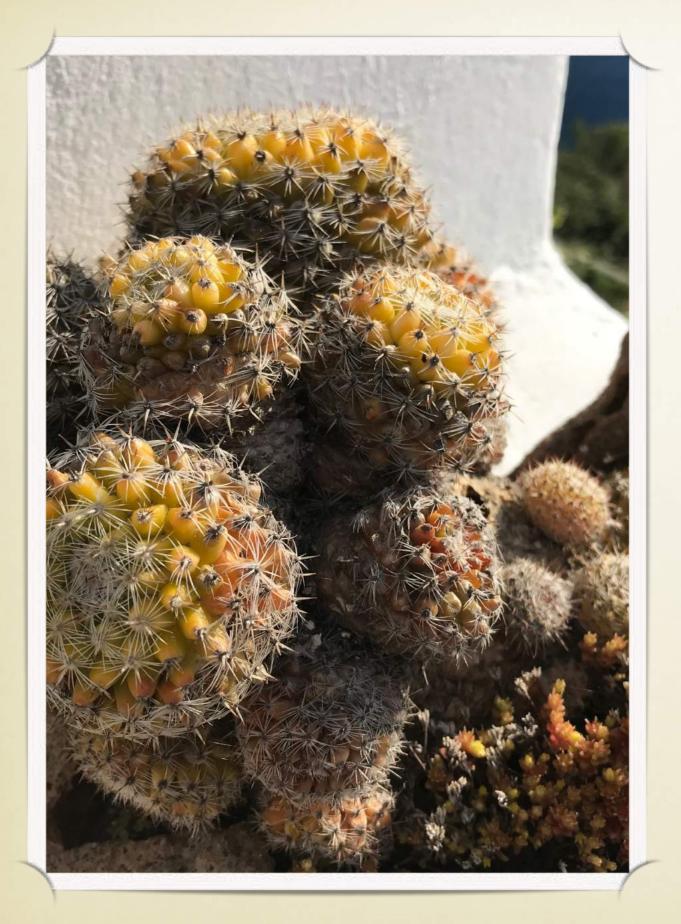

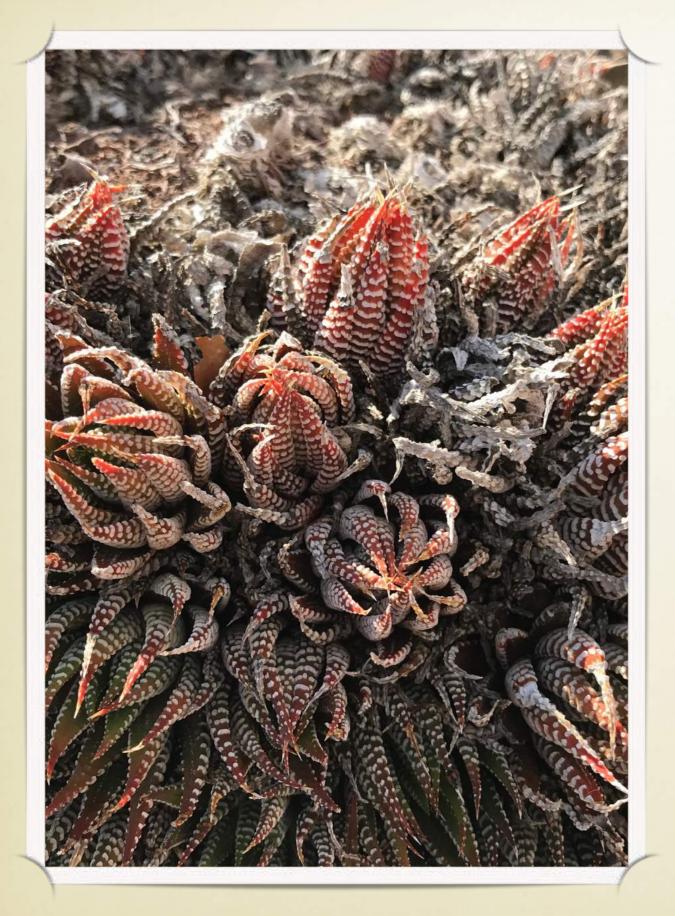

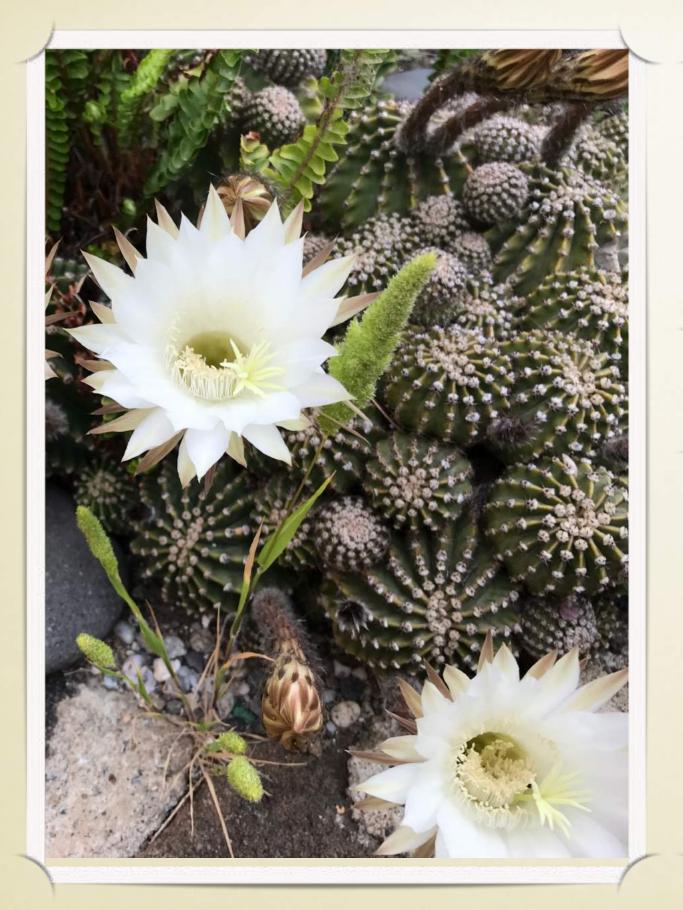

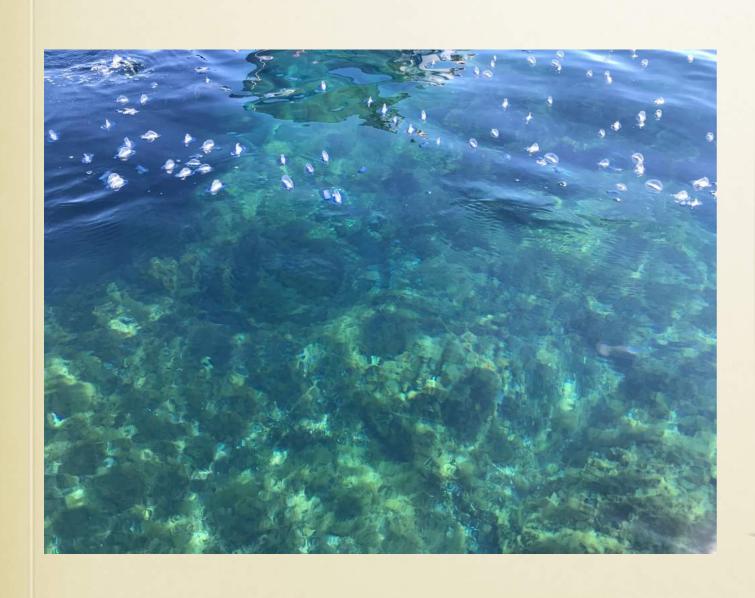

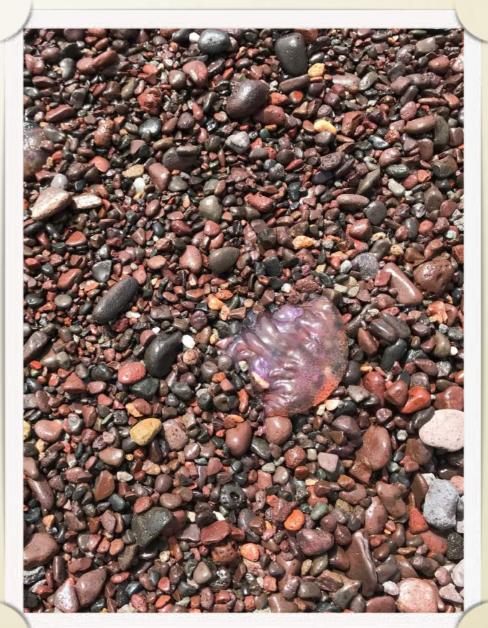

POUR LES BAIGNADES EN MER C'EST FICHU: PLEIN DE MÉDUSES

peu d'animaux
